Halo Passenger Lifejacket

SKU: 83295

Your inflight guardian. The Halo Passenger Lifejacket is a high-performance personal flotation device engineered specifically for helicopter passengers traveling over water, delivering reliable buoyancy and enhanced safety.

Halo is our most advanced aviation lifejacket, purpose-built for helicopter passengers travelling to and from offshore installations. Approved under ETSO C13f and ETSO 2C504, Halo meets stringent European Aviation Safety Agency standards for constant-wear lifejackets in hostile sea areas. This one-size-fits-all solution integrates cutting-edge features to maximise safety and comfort during transit.

The Halo lifejacket incorporates patented Fusion 3D technology, contouring to the wearer's body for an ergonomic fit and freedom of movement inside the helicopter cabin. Its slimline profile and quick-lock buckle system ensure easy donning and comfort over extended periods. Halo also features an industry-first spray hood system, enhancing airway protection in rough seas, and is fully compatible with our bespoke Emergency Breathing System (EBS). This lightweight, high-capacity solution delivers 80% more breathable air than the industry minimum standard.

Every detail is designed for intuitive use and survival performance: bright Hi-Vis inflation toggles for rapid activation, integrated nose clip for EBS deployment, and compatibility with immersion suits and PLBs for a complete personal lifesaving ensemble. Halo is trusted by leading offshore operators for its unmatched safety credentials and user-focused design.

Key Features

- ETSO approved: Meets EASA standards for hostile sea operations
- Fusion 3D fit: Adapts to body shape for comfort and mobility
- Integrated spray hood: Enhanced airway protection in rough seas
- Emergency breathing ready: Lightweight EBS with 310 bar pressure
- High air capacity: 80% more breathable air than minimum standard
- Slimline design: Quick-lock buckle and easy-adjust straps
- Bright hi-vis toggles: Fast, intuitive inflation activation
- Twin-chamber buoyancy: Reliable flotation performance
- Compatible ensemble: Works with immersion suits and PLBs
- Durable flame resistant cover: Nomex for extended longevit

LifejacketsIndustry and ApplicationsCertificationsProduct Info

Release mechanism	Manual
ISO buoyancy class	275 N
Type of Buoyancy aid	Inflatable
Crotch strap	Dual crotch strap
Buckle type	Quick Lock

Actual buoyancy	350 N
Sensor type	N/A
Spray hood	true
Industry	Aviation
Area of use	Helicopter transport, Helicopter passenger transport
ETSO	2C504
Other certifications	ETSO C13F
Weight	2200 g
Size	STD
Colour	Navy
Material	Nomex
Service Interval	1 Year
