E 307 Immersion Suit

SKU: E307-Survivial

Be ready when it matters most. The E-307 Emergency Immersion Suit is engineered to deliver reliable thermal protection and safety for offshore and marine personnel in emergency situations.

The E-307 Emergency Immersion Suit is a 6h certified immersion suit designed for rapid donning and dependable performance when survival counts. Built to meet stringent safety standards, the suit provides thermal insulation and protection against cold water immersion to support extended survival in emergency evacuation scenarios.

Constructed with a durable waterproof outer layer, the suit delivers resistance to harsh offshore environments while maintaining wearer comfort. A lightweight detachable thermal lining increases buoyancy and insulation to preserves body heat if immersion occurs. Certified for minumum 6h immersion.

The design focuses on simplicity and effectiveness: wide-entry openings and smooth internal surfaces make the suit easy to put on quickly, reducing stress and delay in critical situations. Soft seals provide comfort while retaining a secure barrier against water ingress.

Key Features

- Certified emergency immersion suit designed for offshore and marine use
- Durable waterproof outer construction
- Lightweight thermal lining for enhanced insulation in cold water
- Certified to use without lifejacket with built in buoyancy.
- Easy and rapid donning design for emergency situations
- Soft neck and wrist seals for wearer comfort
- Available in a range of sizes to suit different users
- NATO Approved
- Meets standard for Polar Code

Specifications DrysuitIndustry and ApplicationsCertifications

Product InfoNATO National Stock Number

Wrist Seal	Neoprene
Neck Collar	Attached to Neck seal / Hood
Outer Cuff	None
Zipper type	Plastic (Open one side)
Zipper position	Front (Vertical)
Footwear (Socks or Boots)	Shoe / Boot

Suit insulation	6h Insulation
Industry	Defence, Offshore Oil and Gas, Fisheries, Shipping
Area of use	Rapid rescue at sea, Evacuation from platform, Fish farming - daily operations, Emergency evacuation
SOLAS	MED/1.6b
Transport Canada	Yes
Size	STD
Colour	Fluorescent yellow
Material	PU Coated
NATO NSN	4220-25-148-8691(STD Size)
